

Dust - that's everything that will remain after a gig from the Cologne artillery of SKUM. For more than 13 years the gigs of these guys have been legendary and people from everywhere in Germany travel to their gigs that are as powerful as a demolition ball.

SKUM-fronter and texter Nikola stays true to himself and connects personal lyrics in English with German and Croatian accents - an established characteristic, which works better than ever due to songs like "Kolos" or "Brandrodung".

In addition to that in the year 2013 SKUM will deliver everything that was expected from their musicianship. Death Metal - that's what is written on the ripped flags that are blowing in the wind of their new sound.

Blastbeats, driving and morbid melodies and big balls characterise „Prašina“ as well as the well-known bit of Rock `n` Roll and brutal Thrash-attacks.

A very differentiated and clear Sound will make sure that everyone has an equal status and it will strengthen the releases` right to exist.
