

CYLY

EPK

“I am an artist
that stands for
something.”

“And I want to give
people the space to
stand with me without
having to give up
dancing.”

WHO
IS
CYLY
?

CYLY bridges the electronic and organic worlds with a sound that's as punchy as it is radiating. Uniting rough synth textures with bold live-band-driven energy and electrifying vocals she creates music and performances that are dramatic and undeniably magnetic.

FREAK

CYLY started with the single “FREAK” in June 2025, imbedding K-pop and Cyberpunk influences in a song that only had one goal: Energy. That is her priority when writing songs, that people can feel the song, like an electric current running underneath their skin.

ACEDIA

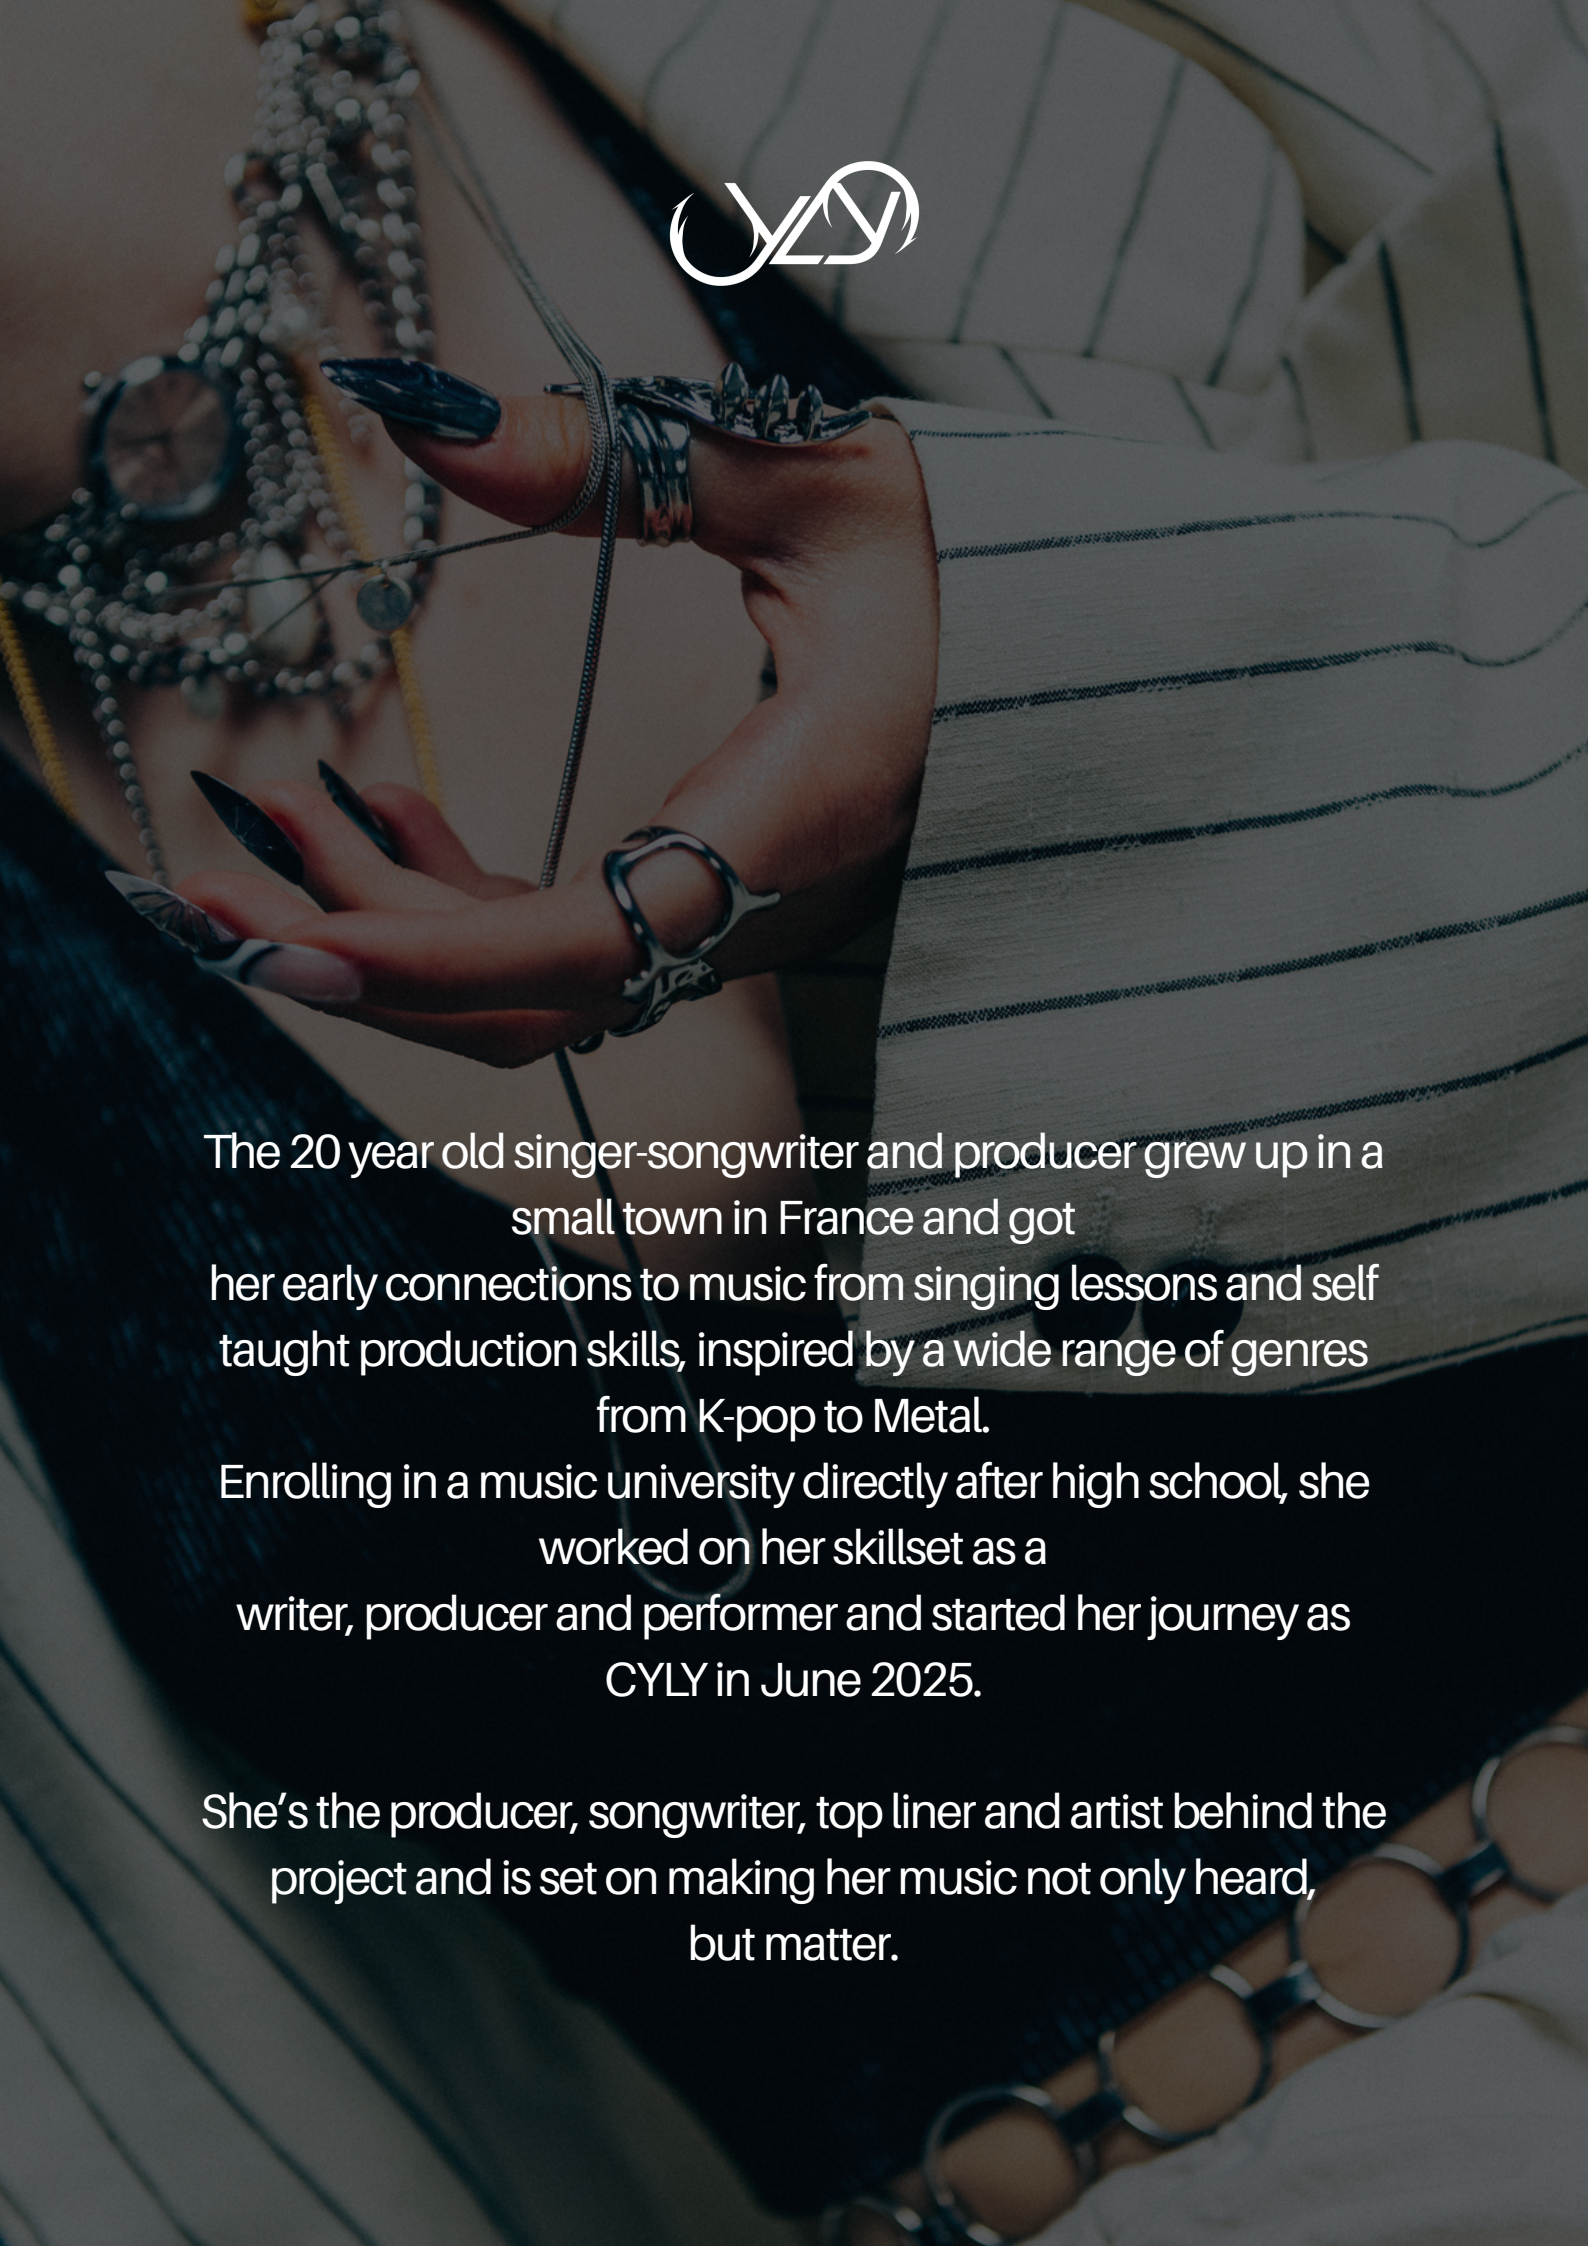

The next single ACEDIA came with more rock elements, roughness and a lot of influence from the soundtracks of the series “Arcane” while talking a lot about mental health, specifically the way our own brains make excuses for our own decisions, while being fully aware they’re wrong.

L’APPEL DU VIDE

L’Appel Du Vide (engl. Call Of The Void) is a french phrase used to describe destructive behaviour during everyday life and the 3rd single, shifting the project into a more alternative poprock sphere while introducing CYLY’s French roots into her music.

The 20 year old singer-songwriter and producer grew up in a small town in France and got
her early connections to music from singing lessons and self taught production skills, inspired by a wide range of genres from K-pop to Metal.
Enrolling in a music university directly after high school, she worked on her skillset as a
writer, producer and performer and started her journey as CYLY in June 2025.

She’s the producer, songwriter, top liner and artist behind the project and is set on making her music not only heard, but matter.
