English Press Release 2024

Born from the streets of Sao Paulo-Brazil, later relocated to Ireland, and today based in Germany, Location is just a detail at this stage.

BreaKdownN blasted on to the scene in 1998 playing every kind of show imaginable. They quickly found themselves embraced by every facet of the insanely diverse local music scene from punk to tech death.

After recording their titled *Disgrace*, a 3-song demo, and a live tape called *Live After Thrash*, the label Unsilent Records saw live and decided to release the first BreAkdowN full length. *"Time To Kill"*. Released in 2007, These 8 tracks have catch the attention in the global underground scene over the following years BreAkdowN appeared in compilations and Magazines in Brazil, USA, Europe and all over the planet and shared the stage with many important bands.

"Divide and Conquer", the new EP, once again delivers an uncompromising extreme Metal with a blend of melody, sounding broadly defined like a bastard of DEATH, SEPULTURA, KREATOR and NWBHM with the factor X that makes BreakdowN what it is.

After years of silence the band joined forces with Andy Classen in Stage One Studio to deliver four tracks of pure energy and uncompromising metal that will please Death Metal, Thrash and Heavy Metal fans in the same vein.

The production is heavy, old school and intense, the music is uncompromising.

"(...) just as amazing as the cover and title, so is the sound of the trio. (...) got the punch of old school, amazing melodic pieces and good solos"
