From left to right: Simon Bertl (g), Tobias Kasper (dr), Elias Witzigmann (v), Markus Heilmeier (g), Andreas Bertl (b)

Bandinfo

Fast but melodic guitar playing, surprisingly diverse vocals, heavy but dynamic drumming and a roaring, devouring bass - that is the german band SWEEPING DEATH! The bavarian newcomers are charging a progressive Thrash Metal storm that will unload its energy extensively. They will be able to win countless Metal-Hearts with their accelerating special mixture. SWEEPING DEATH combines the typical epicness of Power Metal with the raw and violent energy of Thrash. Inserations of Heavy Metal packed in thrilling progressive structures will give you a neck-breaking massage you won't forget! Even the most complicated guitar solos are flowing so easily into the mix, you won't see it coming. With a singer who incorporated every vocal style from esthetic Classic Rock to Extreme Metal, SWEEPING DEATH completes their unique sound. Die-hard Metal fans will notice some ANNIHILATOR influence, as well as some epic, atmospheric even PINK FLOYD orientated parts. And if that wasn't enough, the band manages to place some uplifting piano-parts in between their songs. In the end it's the courage to mix new elements together that makes this band special - different styles, different techniques you have never heard on the same record before. These special compositions will bring great pleasure for Metal enthusiasts and music lovers all around the world!
