JETLAGGED RELEASE NEW SINGLE "ROADTRIP"
- A SONG FOR DREAMERS AND TRAVELERS

Indie folk band Jetlagged returns with their latest single *Roadtrip* – a heartfelt anthem for adventurers, dreamers, and those who long for freedom on the open road. Written during a journey across the United States, the song encapsulates the breathtaking landscapes, fleeting moments, and shared intimacy of life on the move.

The track unfolds with warm acoustic guitar, steady percussion, and evocative storytelling, transporting listeners to wildfires in Yellowstone, stargazing under Orion, and carefree nights wrapped in blankets. The chorus invites you to take a hand and step into a world beyond the present "beyond now, beyond the dawn".

Roadtrip follows Jetlagged's signature blend of folk-inspired melodies and deep lyrical introspection. With its rich harmonies and cinematic feel, the track is a perfect addition to any indie folk, travel, or acoustic playlist.

Stream *Roadtrip* now and embark on the journey!
