/// THE HUMAN BRAIN PROCESSES MUSIC BY JB`S FIRST 60,000 TIMES BETTER THAN SONGS FROM THE WENDLER ///

JB`S FIRST is an electrifying band that has a unique blend of pop, funk, rock, and soul. Their sound is a mesmerizing fusion that draws inspiration from musical legends like Nikka Costa, Jamiroquai and Lenny Kravitz resulting in a sonic experience that is both fresh and timeless. Fronted by the charismatic Kathi Bestler, the band boasts a powerhouse of musicians who deliver tight grooves and infectious melodies. Their songwriting prowess shines through in their original and own compositions. Each track telling a compelling story with lyrics that resonate deeply with listeners. From anthems of love and empowerment to groovy tunes that make you want to dance.

It's not easy to develop yourself further and still remain to your original values. But that's exactly what JB`S FIRST has achieved in their 20+ years of band history.

"LITTLE WORLD" is the title of their latest album and lets the listener participate in the innermost of the Munich formation. In eleven songs the band deals with love, pain, happiness, fear, anger and thrilling adventures. This becomes audible through touching tones and profound lyrics, which in each song contain a message to the audience. The third album of JB`S FIRST is the proof that the band has grown up. The sound is more than ever influenced by rock, pop and the certain touch of funk that makes JB`S FIRST. The album combines calm songs for dreaming and impulsive songs for the dance floor. Above all, the fun of the music and the desire to pass this feeling to the listener is the main focus. "LITTLE WORLD" is a journey into the core of JB`S FIRST: varied, emotional, colorful and loaded with energy.

JB`S FIRST was founded in 2003 by Kathi Bestler, Patric Eckstein and Sarah Dorsel (retired).
