# FINEST ROCK'N'ROLL SINCE 2002

## BOOK MR. CRACKER NOW! SUPPORT R'N'R!

### DOUBLE BASS, ELECTRIC GUITAR, DRUMS AND A PASSION FOR SWEAT-DRIPPING HIGH ENERGY ROCK'N'ROLL

**Mr. Cracker** brings the fun back into music! In times of paralyzing fatigue as a product of the endless struggle to stick to Music as a serious business, they are headin' the other way: The Way of Rock 'n' Roll.

These four musicians from the dark north of Germany roam around on their quest to get people laughing, dancing and enjoying their selves.

The whole thing started quite settled: In 2002, a bunch of well-behaved students decided to become veterans of Rock 'n' Roll all around their country.

Now guess what – it actually happened.

So what could one expect today?

An energetic live show which turns out different every time. The boys take their obsession as light-minded and spontaneous as they are themselves. Except for the classic arrangement of Double Bass, Guitar, Drums, Piano and Vocals, there is nothing really classic about their approach to Rock 'n' Roll.

**Mr. Cracker** is suitable for anyone who denies the grey matter sometimes called melancholy. It's about dancing, it's about a good time. He who is seeking it, for nothing other than this, should be ready to experience a live show of **Mr. Cracker**.

There are no more people behind the band then there are on stage – **Mr. Cracker** is entirely run by the four musicians you'll see at a gig. After founding their own BGB company under the caption **Mr. Cracker Music GbR**, there is no doubt that these guys do it all: Graphic design, website, recordings, press releases, blogging, videos and photos are entirely done on their own or with a little help of good friends.

These efforts that stand for their independence are surely enough to not mark them as another part of the Rock'n'Roll Mainstream.
