# EVERDEEN

Brooding and ethereal yet hopeful – EVERDEEN makes indie rock of the sort you'd expect to find in the UK or Scandinavia, although the multinational trio hails from Southern Germany. Drawing on international influences, EVERDEEN combines elements of shoegaze, post-rock and pop with a compelling female voice to create their own brand of dark and dreamy rock.

Psychedelic washes of fuzzy guitars, electronic textures, and driving post-punk beats provide the orchestration for singer-guitarist Sümeyra Stahl's introspective lyrics, delivered with unmistakable emotion and clarity. The mix of dreamy pop and indie with female vocals can be reminiscent of artists such as Daughter, Mitski, or Warpaint while at times hinting at Beach House or the XX.

EVERDEEN's diverse influences might be explained by the band's international origins. After two years living in London as a singer-songwriter, the half German, half Turkish Sümeyra moved to San Francisco, where she found a musical soulmate in American guitarist Ian Stahl. Faced with the musician-unfriendly rising costs of living in California, the couple relocated to Sümeyra's home of Stuttgart, Germany, attracted by the possibilities of the European music scene.

The move led them to kindred spirit Tommy Mross, whose drumming completed EVERDEEN's sound. It wasn't long before the newly-formed band started to catch the attention of the local scene, with a drive that quickly led to shows all over Germany in 2017 and 2018 as well as international appearances in Vienna and Sweden.

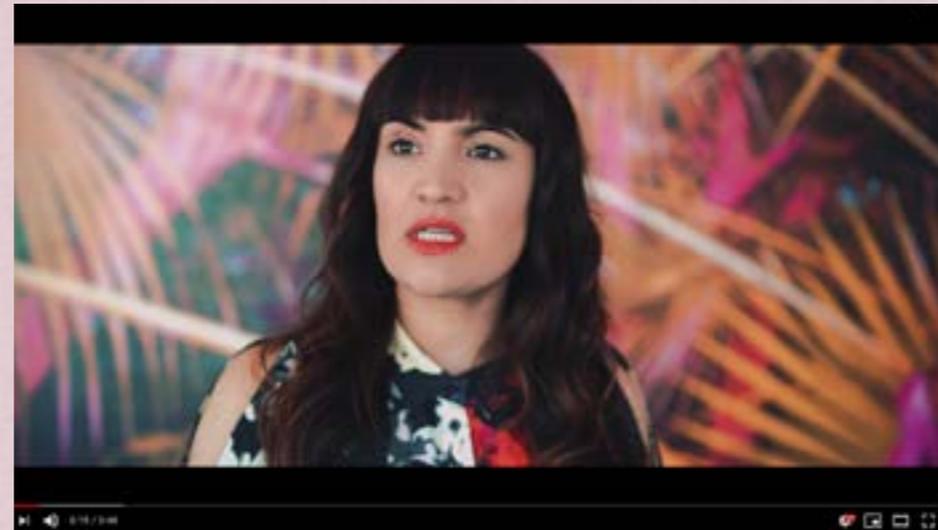

With the goal of capturing their live energy on tape, EVERDEEN went into the studio with producer Ralv Milberg (Die Nerven, Levin Goes Lightly), resulting in three singles released in Summer 2019, each accompanied by a music video. Characterized by a wisp of melancholy, a glimmer of pop, and no shortage of indie rock energy, the three songs both showcase a developed sound while simultaneously only offering a taste of the band's live repertoire. Those hoping for more music are in luck – with three more singles and a tour planned for Spring 2019, EVERDEEN is a band to keep an eye on.

# PRESS & HIGHLIGHTS

Everdeen is no run-of-the-mill indie rock band, who tries to be different only to be hindered by a fake attitude. Quite the opposite: fans of experimental rock bands with emotional female vocals like Mothers, Waxahatchee or of self-assertive female singer songwriters like Mitski will get their fill from this young band.
