

BLACKNETIC

BlackNetiC - crashing sounds between Heavy – and Thrash – Metal, spiced with harmonies and that certain something. Founded in September 2012 by Peter Sowade (vocals/guitars) and Chris Erlbacher (drums), the line-up was completed shortly after by Sam Wagner (bass & backing vocals) and Ronny Kloß (guitars & backing vocals). Since September 2023, Martin Huber has taken over Ronny's part, as he gave up playing the guitar. Numerous festival and live shows, including Sodom, Tankard, Nothing Sacred, Nothgard, Against Evil and other larger and smaller acts can be found in the band's more than ten-year history. After the Demo „Hell & Fire“ in 2014 and the EP „See The BlackNesS“ in 2016, our first full length Album, called “Darkness Falls”, was released on April 15th 2023. \m/BN\m/
