

“Life finds a way.” – Dr. Ian Malcolm

After four years away from the stage, the East Belgian metal band Decent Invasion is making a powerful return. Following the departure of several members, vocalist Yves Boemer, guitarist Peter Freisen, and drummer Raphael Kuckart have reformed the band as a tight, hard-hitting trio.

Back in 2007, Decent Invasion was rooted in the Metalcore sound of the time. Today, their music blends elements of Nu Metal, Hardcore, and Thrash Metal, refusing to be constrained by genre boundaries. Extinction is a thing of the past — a new wave of metal is rising, and Decent Invasion is riding its crest. The new album 'In Somnio' out now on all streaming services!
