BANDINFO

Not the product of a plan and more of a fluid system in motion. That is **DYSPLACED**.

Their atmospheric sound can be described as an unstable yet tension-filled state between deathcore and black metal. Intense riffs paired with technically skilled drumming carry the essence of their sonic texture, which is fueled by vocals steeped in pain and anger. Once it has grown, it is immediately torn apart by shattering breakdowns and reshaped.

DYSPLACED´s songs emerge from what simmers beneath the surface. The reaction is unpredictable and impulsive. As chaos theory suggests, a tiny flap of a wing is enough to tip the balance. The Hanau-based combo captures this moment and translates it into sound.

Not only technically, but also live, they are in constant evolution. The goal of these efforts is to deliver an unforgettable evening to their audience. They have already proven this by securing second place at the EMERGENZA Regional Finals 2023, as well as performing alongside DARK DAYS, MAGEFA, MY ELEGY and demonstrate their ability to organize MOSH'N ROLL 2025.

Work on their debut album is currently in full swing. It will see the light of day in 2026 and captivate the minds of its listeners.

If you´re looking for a band somewhere between INSOMNIUM, FALLUJAH, and BEHEMOTH, you´ve found it in **DYSPLACED**.
