

Press Release

»A feint (german: Finte) is an action which suggests an intention to an opponent, for the cause of prompting him into a foreseeable reaction.«

Finte are not what you think they are.

Founded in 2014, its five members, vocalist Steffen Zurmöhle, guitarists Christopher Pavenstädt and Timur Nilitas, bassist Ralf Frank and drummer Marvin Dreiwes, try to go beyond the borders of music genres. In german lyrics, taken out of everyday life, Finte strive for expressions of the untold. Through unusual song structures and infectious choruses, wild guitar outbreaks and catchy melodies, intense shouting and soulful singing, they create an unbound energy which leaves nobody unaffected.

One could call this progressive post hardcore.
