

Dr. NICK - The rising star at Rockolymp

They have been active since 2013 and the band was founded this year. In total there are 4 people on stage, band founders Tobias Olbrich and Andreas Stöppel. Both are the guitarists and Tobi at the same time as the lead singer.

Ludwig Buchner on bass and Vincent "Vinci" Römer on drums complete the quartet. Regionally they are all Neumarkt in der Oberpfalz, bavaria to assign. All four musicians of Dr. NICK had previously been active in a variety of bands and were thus able to gain nationwide stage experience, for example, through appearances in Austria, Switzerland and Italy.

Dr. NICK makes his own music with English lyrics. The musical spectrum ranges from ballads to sophisticated instrumental pieces to pounding hard-rock pieces in the style of bands such as Black Sabbath, UFO or even AC/CD. Trademark of Dr. NICK, however, are the melodious two-part guitar lines. The group attaches particular importance to the three-part choir singing. Another feature of Dr. NICK is the alternation between fixed and free passages, which are integrated into various songs live as jam sessions.

The first album was recorded in 2015 in Nuremberg, but you did not have the opportunity to bring this sensibly to the man or woman. This

opportunity arose in September 2017 when band founder Olbrich came across owner Daniel "Battl" Sejpka and his record label Battl Victory Records. The company was relocated from Switzerland to the tranquil Wieseneck near Painten in November 2016. After initial collaboration on various private texts of Mr. Sejpka, who is songwriter by the way, one went over it with Dr. NICK to deal with. As one still feels regionally connected and also performs there, the enjoyment lures again nationwide, if not even dedicate to

international events.
